EMMA DONNERSBERG

France

"I conceive furniture as a living organism, at the crossroads of art and architecture. Each piece emerges from a poetic gesture, inspired by nature and emotion. Bronze, marble, ceramic, and wood become sensitive languages—materials that breathe. My creations invite us to inhabit beauty and to experience matter as a presence. Between poetry and structure, I seek to reveal the soul of the spaces I imagine."-
Emma Donnersberg

Emma Donnersberg is a furniture designer and interior architect based between Paris and New York.

Nurturing a dreamlike universe guided by a creative philosophy rooted in spontaneity, her work is imbued with a distinctive sense of spirituality. Deeply intuitive and almost meditative, her creative process gives rise to a highly personal approach to design.

Much like the objects she creates, positioned at the intersection of art and design, Emma Donnersberg conceives interiors as living ecosystems. Each piece plays an essential role within a cohesive whole, both visually and functionally. Drawing inspiration from the infinite richness of nature's forms, colors, patterns, and textures, she seeks above all to instill a sense of movement. At once functional and sculptural, her creations often appear animated by a life of their own.

Today, Emma Donnersberg's work enjoys international recognition. Her creations are regularly presented at leading contemporary design fairs such as PAD Paris and Design Miami, reflecting the growing influence and visibility of her unique artistic universe.
